Description

The SWAGIT for double sleeping is designed as a long dome tent created with top quality canvas, making it a perfect swag for camping in all weather conditions. The SWAGIT double has a sheltered front entry, with sturdy front and rear dome frames which are supported by a strong middle aluminium support pole.

The roof of the swag is fitted with two entrance / window vents which open outward from both sides of the aluminium support frame for greater ventilation. The window vents are sealed by both velcro and zipper, for all weather conditions. The double swag is heavy duty for country living conditions, but light and versatile for off-road travel.

Dimensions

- Length 2150mm x Width 1500mm x Height 700mm
